

EXHIBITOR/GROUP HOUSING

Instructions

General Information

All sleeping room accommodation for SCTE's Cable-Tec Expo[®] will be handled through SCTE/MCI USA Housing. Participating hotels will not honor direct reservations, and published room rates apply only to rooms reserved through the SCTE/MCI USA Housing Block.

For each official Cable-Tec Expo 2023 hotel, fifty percent (50%) of the rooms in the official blocks will be assigned to exhibitor personnel, with the remaining fifty percent (50%) of rooms reserved for attendees.

It is critical that the Society fulfill their commitment to the city of Denver and official Cable-Tec Expo 2023 hotels by honoring the contracted hotel blocks. Hotel blocks are based on the show's history. We rely on a solid citywide sleeping rooms pick up to acquire the exhibit space we need in future Expo cities, and to provide the complimentary amenities our exhibitors have grown accustomed to receiving. **Exhibitors reserving sleeping rooms within the official show block will be awarded additional Priority Points for 2024 booth space selection.**

*See Priority Points document for specific points amounts.
